

Block of the Month – October

October Variable Star 8 1/2" unfinished, 8" finished

The "A" pieces in the four corners should be a lighter colour than the rest. The "A" piece in the middle is the darkest. This block is from EQ5 and I find it very tight in the cutting. If you cut your pieces a hair bigger it should go together a little easier.

Cut all the pieces first & lay the block out to the left of the sewing machine in its proper orientation. Sew all the "B"s together first & lay them down the way the block should look. Sew the "A" to a "B" square to an "A" square in the top row. Sew a "B" to an "A" square to a "B" in the second row. The third row is the same as the first. Sew first row to second & then to third row.

Don't forget you can do this block in Kaffe Fassett like colours or black & white. You could do both if you choose. Have fun !
