

Four Patch Shortcut Quilt 9 or 4 patch.... Which is it?

Another great quilt from the Fat Quarter Shop at: fatquartershop.com. They have lots of great free patterns on their site. The original uses 12 fat quarters for 16 inch blocks and a 48 x 64 finished quilt. This would be good for DAS, Paeds or Cops for Cancer. Go to their site for more detailed instructions.

You will need.....

9 - scraps big enough to get 2 - 6 1/2 inch squares and 10 - 2 1/2 squares
About 13 inches of a strong contrast to cut 5 WOF 2 1/2 inch strips, subcut into 72 squares.
4 - 2 1/2 inch strips for binding, this can be the same as your contrast.

Sew your 2 1/2 squares into 9 patches.
With your large squares sew them into a 4 patch.

Arrange and sew your 9 large blocks and you are done!
