

BLOCK TOWERS

Get out those leftover charm squares!

You will need 28 charms plus some background (about 26") and binding.

From your background:
Cut 8 WOF at 2 1/2 inches
2 WOF at 2 3/4 inches

From 3 of the 2 1/5 strips cut 5 inch rectangles, you should get about 24

Cut 5 of the strips to 32 inches, use the remaining ends to cut more 5 inch pieces for a total of 28.

Sew a rectangle on to the side of each charm square. If you are using directional fabric you will want to arrange them in a pleasing manner and sew half on the left and half on the right.

Once you are happy with the arrangement, sew your columns together, add the 2 1/2 inch wide sashings between the columns, sew the 2 3/4 pieces on the top and bottom.....voila! You are done!
