

FIREWORKS!

A wonderful star exploding out from the centre!

The quilt consists of 16 identical blocks all pointing out from the centre.
9 inch finished, 9 1/2 unfinished.

It would also look great with each block different, all in the same colour family, or each "ring" a different colour....you are only limited by your imagination (and scrap pile!).

For each block you will need:

1 - 5 inch square EACH of background and main colour

1 - 5 1/2 inch square EACH of background and main colour

Using the 5 1/2 inch squares, make a set of 2 at a time HST's
Sliver trim to 5 inches.

Sew together as a 4 patch.

If using a consistent background you will need 16 each of 5 and 5 1/2 inch squares.

Lay out your blocks as desired, all arrows pointing to the quilt centre.
Assemble your rows and you are done!
